Quick Snapshot

- Set Number: 72046
- Release Date: October 1, 2025
- Piece Count: 421
- Features: Lenticular screen, 2 swappable Game Paks (Mario & Zelda), printed parts, display stand optional

Why It Stands Out

LEGO's Game Boy 72046 captures 90s nostalgia with subtle design. The lenticular screen and brick-built buttons mirror the original handheld's charm. It's an ideal display piece for adult fans of LEGO and retro tech alike.

Best For

- Gift buyers looking for nostalgic surprises
- Retro gaming collectors
- LEGO display builders and decor lovers

Quick Comparison: LEGO NES vs Game Boy

* LEGO NES: Larger build, interactive CRT-style screen, geared for display + complexity

* LEGO Game Boy 72046: Simpler, cleaner design with nostalgic details and swappable features

* Verdict: NES is immersive, Game Boy is minimalist and shelf-ready
